

ONE OF THE FOUR TUBES COMPLETE

Pennsylvania Road Will Soon Be Running Trains Under East River.

New York, Feb. 21.—The first of the great systems of tunnels and subways by which the Pennsylvania railroad will be enabled to run a train from Philadelphia under the Hudson river across Manhattan island and under the East river to Long Island City, was completed today. The two ends of one of the four tubes connecting Manhattan island with Long Island City were brought together under the head of the middle of the East river off Thirty-fourth street before noon today, and the steel rings composing the shell of the tube were for the first time bolted in one continuous string from shore to shore. This tube was begun in August, 1905, and is four thousand feet in length. Two other tubes will be completed within a few days and the fourth will be finished within three months, according to an announcement made by the company.

The completion of the first tunnel was celebrated in Long Island City by a display of flags about the works of the company. Workmen who were digging the tunnel from the Long Island City side broke through into the end of the tunnel extending from the New York side last night, but the two ends were not connected until today.

So accurate were the measurements of the engineers that the ends came together with a variation of only three-eighths of an inch. This system of tunnels under the East river will connect the Long Island railroad with the Pennsylvania railroad terminal now being constructed at Thirty-third street, New York. The tunneling railroad is to be constructed in Long Island City and Brooklyn to connect with various stations of the Long Island railroad.

STOESSSEL THE SCAPEGOAT

Press of St. Petersburg Demands That Alexieff and Kuropatkin Be Brought to Trial.

St. Petersburg, Feb. 21.—The passage of sentence of death yesterday by a court-martial upon Lieutenant General Stoesssel, who was tried on charges of cowardice and treason in surrendering Port Arthur to the Japanese, is received with little satisfaction in the Russian capital, where it is felt that the trial of Generals Stoesssel, Fock, Reiss and Smirnov has done practically nothing toward establishing the real responsibility for the fall of the fortress.

The court, indeed, fixed the extent of the guilt of Stoesssel and others, but neglected to judge the situation of which they were the product. It declined to admit testimony regarding the preparedness of the fortress at the beginning of the war, the role of the navy in the defense of a marine stronghold and other underlying factors in the humiliation of Russia.

The newspapers today express sympathy with General Stoesssel and declare that the death sentence will undoubtedly be commuted. They demand also that General Kuropatkin, Viceroy Alexieff and other officers still more intimately responsible for the loss of the war be placed on trial.

NEW TRIAL FOR BESOLD.
Court Erred in Its Instructions to the Jury.

Los Angeles, Feb. 21.—The second district court of appeals today handed down a decision granting a new trial to Anton Besold, the Bavarian butcher convicted of the murder of his wife in Temescal canyon, Santa Monica, July 11, 1906. The court held that the trial judge erred in his instructions to the jury, invading the province of the jury in some of his instructions. The case was one of the most celebrated murder mysteries of southern California. The couple came from Bellingham, Wash. The body of Mrs. Besold was found three months after she had been murdered in the lonely canyon. Weeks were spent in identification and months in the capture of the husband, who was found in Washington, D. C. Besold is now in the county jail, where he is held pending the appeal of his case. He was sentenced to life imprisonment at San Quentin.

CLUBS UNDER THE BAN.

Pittsburg, Pa., Feb. 21.—Without exception, the police have ordered all clubs in Greater Pittsburg closed at midnight in the future. Where club houses are used as hotels, guests will be allowed to enter and leave when they choose, but the selling of liquor will not be permitted after that hour. The order is the result of many complaints from parents and wives.

MANY ARE NON-RESIDENTS

Approximately 30,000 Homeless Men Wandering in the Streets of New York at Present.

New York, Feb. 21.—It is estimated by one of the managers of the Association for Improving the Condition of the Poor that there are approximately 30,000 homeless men in New York today. Of these, probably 60 per cent are non-residents, while it is the society's estimate that about 1 per cent would work if they were given employment. Though the poverty of the deserving unemployed is real, and their need of help constant, the society has reason to believe that conditions are improving, the number of men out of work growing smaller and, finally, that the total of the deserving class of the unemployed has been overestimated. The great majority, a society manager said yesterday, belong to the vagrant class and "work" the organization when they can get a chance to do so.

HOLD ANNUAL BANQUET.

University Club Entertains on Eve of Washington's Birthday.

At the University club last night there was given a banquet at which more than 100 were present. The event is an annual affair and is anticipated with much pleasure by those who enjoy the privileges of the club. Owing to the absence of Judge H. P. Henderson last evening the address, "The Lessons of Life," was not delivered. Otherwise the program was carried out as originally planned with the addition of a response to a toast by Ned Ferry. Dr. Ralph T. Richards responded to the toast "The Race Suicide Problem." "Tainted Money" was the subject of a talk by E. B. Critchlow. Judge C. B. Diehl talked on "Long and Short Sentences." There was a song by Fred E. Smith and another by M. J. Brines. The menu was tempting in the extreme. Clarence E. Allen was toastmaster.

The officers of the University club are Clarence E. Allen, president; George N. Lawrence, vice president; J. Walcott Thompson, secretary; Milton D. Grosh, treasurer; John A. Street, chairman of the house committee; Russell L. Tracy, chairman of the finance committee; Harold L. Siegel, chairman of the social committee; James Inghretsen; and Ralph S. Rainsford are the other members of the social committee.

SENATE WILL PASS THE ALDRICH BILL

Washington, Feb. 21.—Senators Aldrich and Bailey believe the senate will probably vote on the Aldrich currency bill on Friday or Saturday of next week.

When half a dozen speeches have been delivered Senator Bailey will offer for his bill as a substitute for the Aldrich bill, and when it is voted down, as his author concedes that it will be, the committee itself will bring in some amendments. The bill will receive the almost unanimous vote of the Republican senators, but it is conceded that a few of those from the far west will cast their ballot in the negative.

When the bill goes to the house there will be an effort to have it accepted as a substitute for any bill that may be reported by the house committee on banking and currency.

MURDER IN MINNESOTA.

GIVES DOLLARS FOR BIMES

Supposed Beggar Rewards Those Who Respond to His Appeal for Alms.

When it became known last night about 10 o'clock that a man standing at the corner of Second South and Main streets, who was supposed to be a beggar, was giving a dollar to every person who responded to his appeal for alms, there was a quick opening of purses and a scramble to add the needy. The man was soon out of dollars.

The supposed beggar appeared at the corner about 9 o'clock. He stopped a number of men, pleadingly asking for the price of a meal. Some passed him without noticing him, and others roughly told him to go to work or hunt up the free soup kitchens. At last one man gave the fellow a dime.

Immediately the mendicant drew out a dollar and said, "You gave me a dime. I'll give you a dollar."

When the "urchin" about the corner learned what happened, they flocked to the rich beggar and showered him with offers of assistance.

In a very few minutes the man's resources were exhausted and he departed, humming to himself.

INDORSE BEVERIDGE BILL.

As a result of the crusade against child labor inaugurated at Thursday's initial meeting of the Women's party, twenty telegrams were sent yesterday to Washington in regard to the Beveridge child labor bill now pending. One was to Senator Beveridge himself, and read: "The Woman's league of Salt Lake City, representing 1,000 women, in convention assembled, commends your child labor bill and has requested Utah congressmen to support it."

STANDING ROOM IN DEMAND AT EL KALAH PATROL ENTERTAINMENT

Members of the El Kalah patrol last night at Masonic temple discovered that they were more popular than they had supposed. Their entertainment attracted such a large gathering that nearly 200 persons were compelled to content themselves with standing room, all the seats being filled. An interesting feature of the program was a drill by sixteen members of the patrol under command of Captain Henry Simons and Lieutenant C. F. Kutnewski.

The Masonic double quartet was present and rendered several selections. The members of the double quartet were Messrs. Walker, Buzzo, Ross, Wetherill, Herlihy, Brockway and Houghton. The songs they sang were "Ashes of Roses," "Absent," "Hold on to the Rope," "Roses," "The Bank" and a tropical song, "In the Shade of the El Kalah Tree," by John S. Critchlow.

Mr. Sharp sang a solo and was followed by Mrs. John Reed, who gave a humorous recitation, which greatly delighted the evening. A solo by Miss Rowena Korns followed, and there was a reading by Miss Montgomery.

Mr. Critchlow then sang his immortal ditty, "Mother, Don't Go Into the Lion's Cage Tonight."

The same settings some of the scenery was displayed which is used in the Scottish Rite. The stage in the Masonic hall is supplied with ninety-three fire-proof scenes, which cost about \$25,000, and the electrical appliances are superior to those of most theaters, even those of New York.

After the entertainment refreshments were served and there was dancing. A series of entertainments planned by the El Kalah patrol are preliminary to the departure of the patrol for St. Paul in July to attend the Imperial council.

Committees for last night were as follows: Program, C. H. Fisher; refreshments, C. O. King; dancing, Henry Simons and Harry Cushing.

How any such plan can be worked out, especially in view of the action already taken, which commits the executive branch of the government to its offer to relinquish to China the surplus indemnity, is the puzzling question. To make the offer of the executive effective requires the sanction of congress, and unless this body attaches a string to the offer, as indicated, nothing can be done. The senate has practically given its consent to the president's offer and the matter is now pending in the house committee on foreign affairs.
